D. Purpose of Use - Specify number of acres irrigated, stock watered, persons served, etc.

Irrigation ☒ _____ acres; Stockwatering _____ Domestic ☒ _____

Other (specify) Electric Generation at PG&E's Drum-Spaulding Project Powerhouses.

E. Changes in Method of Diversion - Describe any changes in your project since your previous statement was filed.
(New pump, enlarged diversion dam, location of diversion, etc.)

F. Please answer only those questions below which are applicable to your project.

1. Conservation of water

a. Are you now employing water conservation efforts? YES _____ NO ☒ _____

Describe any water conservation efforts you have initiated: _____

b. If you are claiming credit for water conservation under section 1011 of the Water Code for your claimed pre-1914 appropriative right, please show the amount of water conserved:

Reduction in Diversions:

Year _____ (AF/MG) Year _____ (AF/MG) Year _____ (AF/MG)

Reduction in consumptive use:

Year _____ (AF/MG) Year _____ (AF/MG) Year _____ (AF/MG)

I have data to support the above surface water use reductions due to conservation efforts. YES _____ NO _____

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

CONTINUATION

PG&E delivers water to PCWA and MID at various delivery points in Placer and Nevada Counties.

Water is used for public uses including irrigation and domestic use.

There is no reason to expect that your answers should be the same as the ones provided below.

D.	PG&E delivers water to PCWA and NID at various delivery points in Placer and Nevada Counties.
	Water is used for public service uses including irrigation and domestic use.

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriate right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriate rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

appropriators.

Statements of Water Diversion and Use must be filed by riparian and pre 1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future from the State. Appropriate rights can be granted to waters "foreign" to the natural stream system.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriate rights can be granted to waters "foreign" to the natural stream system.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

Water is used for public service uses including irrigation and domestic use.

PG&E delivers water to PCWA and NID at various delivery points in Placer and Nevada Counties.

I declare that the information in this report is true to the best of my knowledge and belief.

I understand that it may be necessary to document the water savings claimed in "F" above if credit under Water Code sections 1010 and 1011 is sought in the future.

I have data to support the above surface water use reductions due to conjunctive use efforts. YES ☐ NO ☐ (aff/mg) yr

b. If credit toward use under a claimed pre 1914 appropriative right through substitution of groundwater in lieu of appropriated water is claimed under section 1011.5 of the Water Code, please show the amounts of groundwater used:

a. Are you now using groundwater in lieu of surface water? YES ☐ NO ☐

3. Conjunctive use of surface water and groundwater

I have data to support the above surface water use reductions due to wastewater reclamation. YES ☐ NO ☐ (aff/mg) yr

b. If credit toward use under a claimed pre 1914 appropriative water right through substitution of reclaimed water, desalinated water or polluted water in lieu of appropriated water is claimed under section 1010 of the Water Code, please show amounts of reduced diversions and amounts of reclaimed water used:

a. Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? YES ☐ NO ☐

2. Water quality and wastewater reclamation

STATEMENT OF WATER DIVERSION AND USE

This statement should be typewritten or legibly written in ink.

- A. Name of person diverting water Pacific Gas and Electric Company
Address 245 Market Street, San Francisco, California 94106
- B. Name of body of water at point of diversion Lake Valley Creek
Tributary to North Fork American River
- C. Place of diversion ~~NE 1/4~~ NW 1/4 Section 35, Township 17N, Range 12E, M.D. B&M,
Placer County, or locate it on sketch of section grid on reverse side with regard to section lines or
prominent local landm
- D. Name of works Lake Valley Reservoir
- E. Capacity of diversion works
Capacity of storage reservoir 7964
State quantity of water used in storage at month end ~~acres~~ acre-feet
cubic feet per second
gallons per minute
acres
acres-feet
- | Year | Jan. | Feb. | Mar. | Apr. | May | June | July | Aug. | Sept. | Oct. | Nov. | Dec. | Total
Annual |
|------|------|------|------|------|------|------|------|------|-------|------|------|------|-----------------|
| | 1020 | 1000 | 1750 | 1820 | 7254 | 7040 | 6700 | 4920 | 3523 | 1900 | 1500 | 1520 | |
- If monthly and annual use are not known, check months in which water was used. State extent of use in units, such as
acres of each crop irrigated, average number of persons served, number of stock watered, etc.
- Maximum annual water use in recent years 7964
Minimum annual water use in recent years
Type of diversion facility: gravity, pump
Method of measurement: weir, flume, electric power meter, water meter, estimate
- F. Purpose of use (what water is being used for) Generation of electric energy, and
irrigation, domestic, and other public service uses.
- G. General description or location of place of use (use sketch of section grid on reverse side if you desire)
Pascua-Paer Project hydro-electric plants, and other uses in Placer County.
- H. Year of first use as nearly as known 1927
- I. Name of person filing statement Hugh R. Daniels
Position Hydro Generation Dept. Organization Pacific Gas and Electric Company
Address 245 Market Street, San Francisco, California 94106

I certify that the foregoing statements are true and correct to the best of my knowledge and belief.
